

Angular Contact Ball Bearing

B7000C Series Angular Contact Ball Bearings-

Bearing NO.	B7007C/P4
Dimension(mm)	
d	35
D	62
b	14
r/1main	1
r/min	0.3
Loading(KN)	
Ca	10.9
Coa	6
RPM(r/min)	
Lub.	28000
Oil	43000
Weight(Kg)	
≈	0.15

B70 series angular contact ball bearings produce with ultra clean steel that can extend the bearing life by 80%. It has the following advantages: high-grade steel balls - quiet and smooth during high-speed rotation;

Ultra precision machining of the raceway surface - special honing processing, which reduces noise to a small extent, improves the dispersion of lubricants, and increases their lifespan; Contact angle - equipped with various products with contact angles of 15 degrees, 25 degrees, 30 degrees, 40 degrees, and 60 degrees; Retainers - available in various types including polyamide, steel, and brass cage.
